- Misc.
 - Zach mentioned idea of having college to college competition
 - **Zach** email the residential colleges about this idea
 - Sign up with college affiliation and have incentive to do better than other colleges
 - Maybe we could give the college w/most participants race t-shirts
 - Deadline for making up our minds on things like this-when we have to submit publications to the spring rec guide

- Updates from jeff's meeting regarding slug run
 - Talk about changing course slightly
 - Suggestion made to make 5K go out on fuel break instead of chinquapin so there is less confusion with the 5k and 10k turnaround
 - Run this year is \$25 instead of \$20, still \$10 for ucsc students
- Non-slug run stuff
 - Zach has the framework for a handbook for next year's club officers-includes deadlines for different logistical club things (see Zach for document)
 - Each officer should soon right up a description of their position for the handbook
 - Officer elections for next year
 - Have a meeting/event after slug run, each club member that attends gets a vote
 - Prior to meeting have members interested in running for position submit intent to run
 - Tentatively thinking early May for actual election event, submit intent to run forms by Friday april 27th
 - Maybe we could make this event/meeting after the cardiac pacer race
- Meeting adjourned 12:55pm
